ROCKET LAUNCHING SITES IN THE BALTIC AREA

19 pages, 3 maps; German

Place Acquired:

Date Distributed: 24 April 1953

Date of Information:

Return to CIA Library

The report contains a list and brief description of rocket launching sites in Estonia, Lithuania and Latvia, together with three maps showing the location of these sites.

The following places are listed in the Estonian SSR: Anti-aircraft rocket installations in Rigudi, Khaapsalu, Saulepa, Ellamaa, Uulu, Kabli, Kokhila, Paide, Tyuri, Kassaare, Manspee, Kopu, Undva, Torise, Ansekula, Salme, Saksai, Nissi, Oisu, Normkula, Mukhu; rocket sites in Kaina, Myysa-kyula, Vilyandi, Oisu, Yisaku, Mustvee, Lake Virts, and Lake Peipus (Chudskoye Ozero): The following data are given for each location: distance in kilometers from city and/or coast, number of launching equipment, number of personnel, number of barracks for personnel and materials, number and types of vehicles, and radio equipment. A more complete description is given for the first rocket installation mentioned above, which applies, in general terms, to the remaining ones. Two rocket plants, which operate underground, are located on Lake Virts and Lake Peipus (Chudskoye Ozero); number of workers, output, transportation facilities, etc., are given.

Lithuanian SSR: Anti-aircraft rocket installations in Barstitsyay, Kretinga, Plunge, Heidekrug (Shilute), Taurage, Stakyay, Shyaulyay, Baise-gala, Grinkishkis, Raguva, Degutayay, Debekyay, Utena; rocket sites in Plunge, Salaskas, and Smolvi.

Latvian SSR: Anti-aircraft rocket installations in Ventspils, Zlekas [probably Sloka], Ayzpute, Kuldiga, Liepaya, Dursupe, Remte, Pale, Vaydaya; rocket sites in Kandava, Dursupe, Starti, Smiltene, Druste, Skuyene, and Ergli.

The same information is given for the locations in the Lithuanian and Latvian SSR's as for the installations in the Estonian SSR.

[Foreign-language document or a microfilm of it] may be obtained from CIA Library,
